Phase 3: Asynchronous JS

- Callbacks
- Promises
- Async/Await
- Fetch API
- Error Handling

Phase 4: Advanced Concepts

- Closures

- Scope and Hoisting
- Prototypes and Inheritance
- this keyword
- Event Loop

Phase 5: Real Development

- Modules
- Debugging
- Code structuring
- Git and GitHub basics

Phase 6: Frameworks

- React basics: components, hooks
- Node.js basics: Express, APIs

Phase 7: Advanced Topics

- Design Patterns
- Performance Optimization
- Security (XSS, CSRF)
- Testing with Jest
- Build tools
